Good afternoon Christina and Tina,

After speaking with John Troiano, we feel that both the Thiamethoxam and Clothianidin Colony Feeding Study statistics should be discussed during the same meeting. Would it be a possibility to place both items on the agenda for the meeting on the 22nd?

Thank you and have a good day,

I am not entirely sure. I think that would be a call for John and Christine.

Hey Ricardo,

Will we be discussing the clothianidin CFS stats at the same meeting? Or are we setting up another meeting for that?
